Good afternoon, USC!

Here are your updates for the week of August 8th-12th

Important Information:

Lunchroom: If you would like to eat in the lunchroom you are now welcome to do so :)

Health Facility - The <u>booking sheet</u> is live for spots this week in the Health Facility. Just a reminder that this space is located in UCC 149 across from the West Lounge entrance (the door still says "Purple Bikes"). Anyone is welcome to pop into the space and check it out without booking time. If your card does not allow you access, please let Sue McKone know.

Departmental Updates: PEOPLE AND DEVELOPMENT:

EAP Newsletter:

EAP has sent us the July edition of their newsletter! Please check it out using the link below. There will also be a physical copy posted on the bulletin board in the lunchroom.

FSEAP Solutions Vol 7 2022.pdf

Wellness Program:

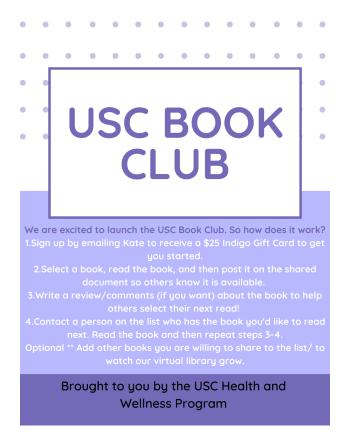

Just a friendly reminder that if you would like access to a Headspace account you can enroll for free using this link! Headspace is a wonderful app that has guided meditation sessions, workouts, podcasts, and playlists created to help you focus while doing work! https://work.headspace.com/universitystudentscouncilofwesternuniversity/member-enroll

Mental Health First Aid:

Please see the link below for information regarding the next Mental Health First Aid offering from one of our training partners, Cheryl Legate. If you are interested in attending the two-day session taking place on August 17th and 18th, please check with your manager to make sure that your operation can handle your absence for those two days and then contact Andrea at aklooster@westernusc.ca and she will get you registered. Please note that the fee for this training is covered by the USC Health and Safety Program and is free to you.

August 17th and 18th 2022 - 2 Day Mental Health First Aid Certification Training - London....

New USC Book Club:

USC Virtual Library:

https://docs.google.com/spreadsheets/d/1PgsLgsa2vXjNCVSbGttPFral8xgk9Gpd7QQ-9ILglHo/edit?usp=sharing

FINANCE

July 2022 gls to be distributed this week. If you have AP and AR info not submitted for July, please reach out to MA.

INFORMATION SYSTEMS:

Astronautics and bridging the technological divide are two fields I've always been interested in, which I thought I would share some information about in today's article. We often take fast internet for granted here on campus and at home, but the reality is that there are communities where less than 5% of the population is online or has access to a reliable internet connection (Source: Ourworldindata.org). Any advances that can be made in spreading the accessibility and adoption of internet technologies will help to empower people Worldwide. Starlink, a

satellite internet company owned by the Space Exploration Technologies Corp (@SpaceX), is working on such an initiative and plans to surpass a milestone of more than 3000 satellites launched by this week on August 9th. Deployed into low-Earth orbit by Falcon 9 reusable rocket systems, these satellite "trains" are sometimes visible up in the sky, since they are at altitudes of only 540 kilometres or less. Curious to see if you can spot one? Satellite passes that can be observed can be found at https://findstarlink.com/. Here are some facts that I found interesting about Starlink:

- Starlink is currently available in Canada and 35 other countries (Source: <u>Starlink.com</u>).
- The cost of a Falcon 9 launch is 67 Million Dollars, and it can carry approximately 8.3 tonnes of payload (Source: Nextspaceflight.com).
- Poverty around the Globe strongly correlates to a lack of access to fundamental services, which are often not available because expensive core infrastructure is not in place (Source: Datatopics.worldbank.org).
- Starlink provides high-speed internet and is ideally positioned to give under-served communities across the Globe access to remote education and connected health services.
- A residential Starlink Kit costs less than \$1000 and can be installed anywhere with a clear view of the sky, within the satellite service area.

Joe Czenke

PRODUCTIONS: PPE will be migrating to the Wave mezzanine for storage. Should you require any masks, goggles, or other PPE, please check in with a member of either the Productions or Wave teams to be granted access.

If you are using a conference room, please remember to tidy up after yourself and clean up any spills or messes upon the conclusion of your meeting. We do not have staff actively patrolling the space due to reduced usage.

RESERVATIONS & BUILDING SERVICES:

UCC SUMMER HOURS:

Monday to Friday: 6:30 a.m.- 7:30 p.m. Saturday/Sunday - Closed

NEW EMSWEB LINK AND EMS MODULES:

We have migrated our EMS booking software to the Cloud.

EMS Web: There is a new link to book rooms online - https://usc.emscloudservice.com/web/ Your Username will still be the first part of your westernusc.ca email and your password is your phone extension. Please let Sue know if you are having trouble logging in.

In the coming weeks we will be adding a **G-Suite module** to EMS which will allow you to search for available space directly from your google calendar when you are arranging meetings.

Now that we are in the Cloud we will also be implementing access to the **EMSMobile App** so you will be able to book space and manage reservations from your phone.

We will update you when these are available and provide the necessary training on how to use them.

INFOSOURCE:

With the latest new hires and office changes, check the latest staff phone list in the hub. Let Karen know if an update or revision is needed. Thank you for your patience as the revisions are a work in progress.

Please continue to use the office supply request form in the staff hub for any office supplies needed. https://westernusc.forms-db.com/view.php?id=271262
